# **iCHAIR ORBIT** 1.618

Allowed user weight 120 kg 160 kg (with 350 watt motors CODE 525)

Optimal maneuverability and high stability for precise maneuvering

Compact dimensions realized by the smallest overall width and seat height

Maximum flexibility realized by single or double support wheel

High max. user weight of 160 kg

# The flexible agile one

#### **EFFICIENCY**

- Effectiveness through simple maintenance and a high level of service friendliness
- Little need for repairs by implementing high value and durable parts
- Modular structure of the iChair-family enables compatibility of parts and parts groups
- Numerous adjustment possibilities enable individual adaptation
- Simplified reinstallment through perfect user size limitations, as for example a standard user weight of 160 kg

#### THERAPEUTIC BENEFIT

- The central leg support makes a 90° knee angle possible
- Ideal for retaining mobility at home, at the desk or in the office
- Effective pressure relief and relaxing positioning for long term sitting, through large electric adjustment sectors

#### FIELD OF USE

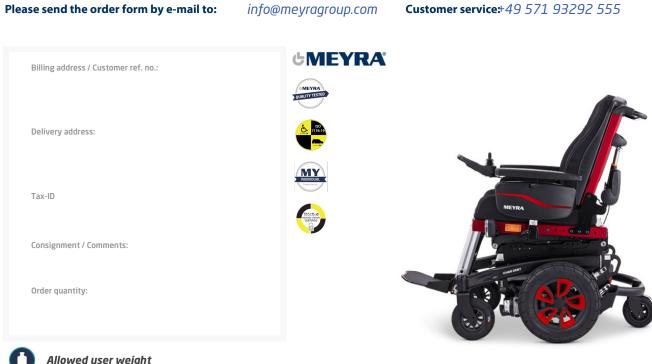

- For indoor and outdoor use, spring-mounted drive unit standard
- Especially good for indoor use: Rotating around its own axle supports in tight manoeuvres
- Precise manoeuvres through rigidly mounted steering castors
- The optional side-mounted support wheels allow easy and safe driving on single ramps
- For permanent and all-day use for independent mobility, also with extreme functional limitations
- For working and active people, who need one wheelchair for different everyday situations
